

Allen and Coles Moving Company

Cyber-First. Future Ready.

About Allen and Coles Moving

Founded in 1986 and based in Portland, Maine, Allen and Coles Moving Company is a leader in the New England relocation industry. With more than 100 highly trained employees and a fleet of 80+ vehicles, they've earned the NAVL Quality Award six years running—proof of their commitment to service excellence.

When the company needed to modernize its IT infrastructure and stay ahead of emerging cybersecurity risks, they partnered with Logically to strengthen operations and simplify complexity.

Why It Matters

In the moving and logistics industry, operational continuity, secure access, and technology scalability are critical. Allen and Coles needed a solution that didn't just respond to IT issues—they needed a proactive partner who could reduce risk, guide investments, and scale with the business.

The Solution

Logically delivers **cyber-first managed IT services** that reduce risk, increase efficiency, and support long-term success:

Security-first focus: Ongoing updates, phishing education, and multi-factor authentication guidance

Modern workplace enablement: Microsoft 365 rollout and secure cloud infrastructure

IT support at scale: Device lifecycle management, new hire onboarding, and 24/7 help desk

Strategic oversight: Annual technology planning aligned to business goals

The Challenge

Like many mid-sized businesses, Allen and Coles once handled IT internally. But growing complexity and rising security demands exposed the limits of that approach.

On our own, I thought we were doing fine. But IT is what Logically does for a living. They do it very well, so I don't need to. What we've got now really works.

Julian Coles,
President and Owner,
Allen and Coles Moving Company

Logically stepped in to manage core IT operations, mitigate risk, and ensure business continuity. When the pandemic hit, Logically enabled a seamless shift to remote work—within hours—by delivering rapid device provisioning, cloud access, and remote support.

If I have a problem, they already know it. Their help desk is excellent, and I've worked with several team members who solved complex issues quickly and professionally.

Julian Coles

Strategic Impact

- ✓ **Improved cyber hygiene:** Regular security updates and user training enhance resilience
- ✓ **Faster issue resolution:** End-user support with responsive, expert-level care
- ✓ **Streamlined operations:** Cloud-based systems support secure, scalable growth
- ✓ **Forward-thinking planning:** Long-term IT decisions guided by business value

If we had any major IT projects, Logically would be the first call. They help us understand where to invest and where we don't need to. That kind of guidance matters.

Julian Coles

Future Ready

Allen and Coles Moving Company continues to focus on strengthening operations and safeguarding its technology environment. With Logically's proactive approach and operational maturity, the company benefits from a secure, scalable IT foundation that adapts to evolving needs. Strategic guidance, responsive support, and forward-thinking planning ensure that every technology investment delivers measurable value and supports long-term success.

We make a living one couch at a time, so every investment needs to be smart. Logically helps us do the right thing at the right time. They're a great team, and I'd recommend them to anyone.

Julian Coles

Outcome Highlights

- ✓ **100+ users securely supported**
- ✓ **Cloud-first strategy implemented**
- ✓ **Remote-ready in under 24 hours**
- ✓ **Responsive support and technical guidance**

Partnering for Resilient, Future-Ready Logistics

In the moving and logistics industry, operational continuity and secure technology systems keep customers' lives in motion. With Logically's support, companies can safeguard data, optimize fleet and scheduling systems, and adapt quickly to changing demands. Let's explore how we can help you deliver efficient, secure, and reliable moving services.
