

Executive Training Service

Service Overview

-  Increase executive awareness of key cyber threats
-  Clarify leadership's role in cybersecurity governance
-  Align decision-making with regulatory and strategic risk

The exercise will be **led by a CISSP-certified cybersecurity professional**

Executive Cybersecurity Training – Presentation Outline

 Cybersecurity Risk & Resilience for Executives

 90 minutes – 4 hours (adjustable)

Structure

Welcome & Objectives

- Why cybersecurity is a business risk, not just an IT issue
- Today's goals: clarity, accountability, and actionable insight

Current Threat Landscape

- Ransomware, phishing, and insider threats
- Case studies: real-world executive-level breaches

Cybersecurity Roles & Responsibilities

- Board and C-suite obligations
- What regulators expect from leadership
- Role in governance and funding

Risk & Compliance Overview

- Key frameworks (NIST CSF, CMMC, ISO 27001)
- Common regulations: HIPAA, GLBA, SOX, SEC, DoD
- Third-party/vendor risk

Incident Response & Crisis Management

- Executive actions during a breach
- Media handling, breach notification, and public response

Metrics & Cyber Risk Reporting

- Cyber risk dashboards for leadership
- Translating technical risk into business impact

Simulation or Scenario Walkthrough

- Mini tabletop or decision-point exercise for executives
