Tabletop Exercise Service

Logically
CYBER FIRST. FUTURE READY.

Service Overview

What You Get
This service outlines the delivery of a facilitated information security tabletop exercise designed to assess and strengthen the organization's incident response capabilities, roles, and communications during a simulated cybersecurity event.

Led by
The exercise will be **led by a CISSP-certified cybersecurity professional**

Objectives

- Test and validate the organization's incident response plans and escalation procedures
- Clarify roles and responsibilities during a cyber crisis
- Evaluate communication flows between IT, Security, Legal, PR, and Leadership
- Identify gaps in documentation, training, or coordination
- Promote executive and cross-functional awareness of cyber risk

Exercise Format & Approach

Type
Discussion-based tabletop (no live system testing)

Delivery
Virtual via Zoom/ Teams or Onsite at Client Facility

Duration
~5 hours for core exercise + optional debrief

Participants
Cross-functional: IT, Security, Executives, Legal, Comms, HR

Scenario Type
Customizable: Ransomware, Insider Threat, Business Email Compromise, etc.

Frameworks
Aligned with NIST CSF, CMMC IR practices, and/or HIPAA incident response expectations

Deliverables

- Custom tabletop scenario with tailored injects
- Facilitation of the exercise session
- Real-time notes, observations, and guidance

- After-Action Report (AAR) summarizing:
  - Strengths
  - Gaps and response delays
  - Policy and process improvement areas
  - Recommendations for training or updates
- Optional: Follow-up debrief and policy consultation

Investment

Scenario Design & Planning, Live Exercise Facilitation, After Action Report
$11,860.00

Travel & Lodging (if onsite) [Billed at cost]

Note: Pricing may vary based on organization size, location, and customization level.

Assumptions

- Client will coordinate internal participants and scheduling
- No sensitive or production data will be used
- Client will provide relevant incident response plans and contacts ahead of time (if available)
